

PROJECT FACT SHEET

Large Dog Park Redesign

Project Description

After completing the renovation of the small dog park area at Eastport Park, plans to develop the large dog park area into much-anticipated playground for our bigger K-9 friends started. The design plans include transforming the current area with new dog agility equipment, decomposed granite (DG) pathways, two additional shade structures, more trees and benches. The existing dog water fountain, solar lighting, and dog bag stations will be used in the new design.

Next Steps: Start Construction!

Construction on this project will begin July 19, 2021. The project is anticipated to be completed within a 6 week timeline. During this time the large dog park will be closed.

Project Funding

Board Approval Date: May 4, 2021
Approved Amount: \$100,706.39 from Repair & Replacement Fund and \$16,760 from Capital Improvement Fund, plus a 5% contingency
